Chained to Your Truck's Laptop?

Break Free with *SOSMobile*

Even if your field devices are laptops tethered to your trucks, *SOSMobile* offers ways for field personnel to experience full mobility- without the cost of acquiring expensive tablets.

Say your Field Service Representatives (FSRs) need to take a picture to document meter tampering, watering violations, etc. Or, maybe they need to capture a customer's signature.

With a smartphone, iPad or similar device, FSRs can simply:

- Take the picture or capture the signature.
- Attach the image to an email.
- Put the order number in the subject line.
- Send it to a specified address.
- The image is attached to the order!
- And no additional *SOSMobile* software is required.

Take it One Step Further for More Flexibility

Load the smartphone or other device with *SOSRemoteTouch*, and FSRs can enter meter readings, select inventory, and capture information at the source - like a customer's basement.

This data is automatically shared with the full version of *SOSRemote* on the truck's laptop.

A great solution for data intensive orders that may need the power of the full version for closing.

[Contact us](#) to find out how easy and inexpensive it is to break the laptop chain and experience full mobility!

Moving Notice

InsightAtlast is *On the Move*

We've outgrown our Amherst, NH office space and are in the process of moving to a larger location in the neighboring town of Milford.

Our new mailing address is:

InsightAtlast, LLC
1 Elm Street
Milford, NH 0305

Phone numbers and email remain the same.

We look forward to serving you from our new offices!

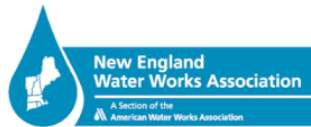

Out and About

Upcoming Conferences

We hope to see you at one or both of these upcoming events.

April 2-3, 2014

We'll be in **Booth 511** at the New England Water Works Association's (NEWWA) 2014 Spring Joint Regional Conference & Exhibition in Worcester, MA.

May 6-9, 2014

At CS Week at the Henry B. Gonzalez Convention Center in San Antonio, TX, you'll find us in **Booth 116**.

We hope you'll stop by to see all *SOSMobile* has to offer, and for a hands-on demonstration of *SOSRemote*.

About InsightAtlast

InsightAtlast has provided the Utility Industry with quality software and service since 1999. Our SOSMobile suite of software affordably automates a utility's entire mobile workforce and service order workflow. With intelligent scheduling, mobile dispatch and real-time updates, SOSMobile connects customer service with field operations using existing infrastructure and devices. Since its flexible modules can be tailored to suit any utility's unique mobile workforce, it's currently in use at a diverse array of client sites.
