

SOSMobile is a mobile workforce management system that automates all areas of your field service workload.

If you're looking to save money and improve efficiency in this tight economy, **SOSMobile** may be your solution.

- Low to no infrastructure costs – takes advantage of existing networks and devices

- Installs in less than 30 days

SOSMobile

AUTOMATING YOUR MOBILE WORKFORCE

- Proven record of reliability – operating continuously at multiple sites since 2000

- Improves customer service

- Connects your office to your field service techs
- Reduces field tech windshield time and fuel costs
- Eliminates data entry redundancy by closing orders in the field
- Works for large or small, rural or urban territories – even with spotty connectivity

- Intelligently schedules service orders based on type and location
- Automatically dispatches orders to field personnel
- Interfaces to your customer information and billing system and provides real-time updates
